

Summer School 2020 — eLearning Program

eLEARNING (ONLINE) COURSE INFORMATION

The COVID-19 pandemic has created many changes in our lives. Students, families, and teachers are all learning how to adapt to this situation. This year, Summer School learning will continue through the OCDSB Virtual Learning environment. Students will continue to read, work independently or as a member of a group, complete assignments and interact with their classmates and teacher. While students should plan to spend a minimum of 6-8 hours per weekday on their eLearning course, they will have some flexibility to choose when they work during the day, as long as they meet course due dates and times. Each course is facilitated by a teacher who establishes the timing of how the class works through the course material, in part to encourage collaboration and enable effective feedback. Students are encouraged to establish routines that will support this.

Important to Note:

- Students are encouraged to make arrangements so that they are available to complete assignments within the tight timelines of the summer course.
- Oral assessments/final course evaluations are part of the summer eLearning courses and students must make themselves available at the time designated by the teacher.
- Due to the condensed schedule, students may only be registered for one Summer eLearning course

Programs will run subject to sufficient enrollment.

REGISTRATION INFORMATION

When to Register? Monday, May 4, 2020 – Friday, June 12, 2020

- OCDSB students will register through their Guidance Counsellor, please refer to your school website for more information.
