<p><b>Special Considerations:</b></p> <ul style="list-style-type: none"><li>• <i>All virtual placements must be pre-approved by your assigned Co-operative Education Teacher</i></li><li>• <i>Some requested placements are challenging to secure. Students need to come in with an open mind and a few possible options of placement choice.</i></li><li>• <i>We will make every attempt to find virtual placements, however, please understand a virtual work placement may not be possible due to many different circumstances. Virtual community involvement will be introduced in other experiential learning forms in such cases (i.e. Guest Speakers, Informational Interviews, Virtual Human Library, etc.)</i></li><li>• <i>Age restrictions of specific placements must adhere to the Employment Standards Act</i></li><li>• <i>Students will need to check their email used upon registering for ongoing communication from Continuing Education Staff</i></li><li>• <i>Students will need to login (check in with the teacher daily) for the duration of the program dates</i></li><li>• <i>Assessment and evaluation expectations of students include direct engagement by students in all activities culminating in development of skills and abilities toward final marks.</i></li><li>• <i>Given the rapid pace of the summer co-op session combined with a virtual delivery platform, engagement, diligence, and commitment on the part of students is essential for a successful experience.</i></li><li>• <i>As this is a virtual learning opportunity, in order to participate in this program your child will need to have access to technology and the internet. <b>Students who require technology and access to the internet can communicate their needs to their guidance counsellor.</b></i></li></ul>
